

## Showcasing Vancouver's Top Date Spots

### We Bring You New Business

We deliver you couples and help you build a loyal clientele. Get featured on ForTwoPlease to connect with thousands of active daters who love experiencing new things in and around Vancouver!

### Why Couples?

#### Couples Love Commitment

Couples use ForTwoPlease as a guide to help them find their new favourite date spot to add to their regular "Date Night" routine. Is your business one of them?

#### Couples Spend

Couples usually share their incomes and are more likely to spend money on a date to ensure it's special. This means more bottles of wine, room service, photos and other extras.

#### Couples Share

Couples, especially women, share more on social media about their Date Experiences than singles do. Word of mouth is everything.
